

AUDIO-VISUAL REQUIREMENTS:

EDDIE LEMOINE

1. Projector and screen (Eddie uses a MacBook Pro computer)
2. Sound capability for his laptop (Headphone jack)
3. Eddie arrives equipped with a versatile wireless microphone that connects seamlessly to the venue's system via an XLR cable. The microphone is designed for compatibility, and a range of adapters ensures functionality with most wireless transmitter brands. Should the venue offer a wireless lapel mic, Eddie's gear includes suitable adapters for leading brands like Audio Technica, AKG, Sennheiser, and Shure, ensuring a smooth and hassle-free audio experience for his presentations.
4. Eddie brings his laptop (MacBook Pro. Eddie has VGA and HDMI Adapters)

If the AV provider for your event has any questions, don't hesitate to contact Eddie directly at eddie@eddielemoine.com. We are committed to providing the highest-quality presentation and welcome any suggestions.
